

LAYKAWN'S EXECUTIVE CANDIDATE

Address: Ibadan, Oyo State, Nigeria **Phone number:** +234 805 481 8968
Email address: labtech@laykawngnitworks.com **LinkedIn:** linkedin.com/in/laykawngnitworks

PROFESSIONAL SUMMARY

Laboratory Technician and Diagnostics Support Specialist with hands-on experience across medical laboratories, diagnostic testing, quality control procedures, and field technical operations. Strong proficiency in sample analysis, equipment calibration, reagent preparation, and adherence to laboratory SOPs. Proven ability to support diagnostic outreach programs, manage pharmaceutical devices, and strengthen operational efficiency. Highly adaptable and detail-oriented, with a solid HND in Science Laboratory Technology (Chemistry/Biochemistry) and a track record of improving laboratory accuracy, workflow, and safety compliance.

CORE SKILLS

Laboratory Testing and Analysis	Sample Handling	Microbiology & Biochemistry Procedures	Diagnostic Device Management
QC Testing	Reagents Preparation	Pharmaceutical Support Operations	Equipment Calibration
Data Recording & Documentation	Safety & SOP Compliance	Field Technical Support	Outreach Health Diagnostics

PROFESSIONAL EXPERIENCE

Laboratory Technician Speedy Health on the Wheels Foundation

📅 04/2025 – Present 📍 Ibadan, Oyo State

- Performs diagnostic tests during medical outreaches, enhancing rapid patient assessment accuracy by delivering reliable laboratory results.
- Processes, stores, and analyzes patient samples in alignment with SOPs, increasing daily testing throughput by over 20%.
- Manages equipment calibration and reagent inventory, reducing testing delays and minimizing equipment-related errors.
- Supports clinicians with evidence-based laboratory inputs that improves decision-making for mobile health interventions.

Field Technician / Technical Support Orange Drugs Limited

📅 06/2024 – 03/2025 📍 Ibadan, Oyo State

- Managed pharmaceutical medical devices across assigned territories, improving device uptime and operational readiness.
- Coordinated distribution of prescription drugs to mapped retail outlets, increasing delivery efficiency by 25%.
- Provided device status updates to supervisors, strengthening visibility and improving field response time for device troubleshooting.
- Ensured proper handling, storage, and documentation of supplied drugs in line with the company's compliance requirements.

Laboratory Technician Grey's International College

📅 01/2021 – 03/2022 📍 Kaduna, Kaduna State

- Prepared, conducted, and supervised laboratory practicals in Chemistry, Biology, Physics, and Agricultural Science, improving students' laboratory proficiency.
- Maintained and calibrated laboratory instruments, ensuring consistent equipment reliability and safety.
- Organized chemicals and reagents using standardized labeling and storage protocols, reducing wastage and contamination risks.

Laboratory Technician (Industrial Training) Bioassay Diagnostic Service

📅 10/2018 – 01/2020 📍 Lagos, Nigeria

PROFESSIONAL EXPERIENCE

- Received, labelled, and analyzed biological specimens with 95% accuracy in test results.
- Executed laboratory experiments to investigate diagnostic hypotheses, supporting the diagnostic team's efficiency and reliability.
- Followed laboratory quality standards, reducing sample-handling inconsistencies and strengthening data validity.

Science Laboratory Technology Intern (SIWES)

Bioassay Diagnostic Service

📅 09/2017 – 12/2017 📍 Lagos, Nigeria

- Conducted microbiological analyses and supported ongoing research activities in the medical microbiology laboratory.
- Recorded experimental findings and research data with precision, improving the accuracy of clinical documentation.
- Maintained sterile workspaces and performed quality control tests to uphold laboratory safety standards.

EDUCATION

Science Laboratory Technology (Chemistry/Biochemistry) | Higher National Diploma (HND)

Kaduna Polytechnic

📅 10/2022 📍 Kaduna, Nigeria

Science Laboratory Technology | National Diploma (ND)

Kwara State Polytechnic

📅 08/2018 📍 Ilorin, Kwara State

CERTIFICATIONS, CONFERENCES & TRAININGS

- 6th Annual Scientific Conference, World Bank Society of Nigeria, 2019.
Theme: Standardization in Screening and Certification of Blood for Transfusion
- Mubarak Leadership Series
- Laboratory Safety & Quality Management (informal experience through Bioassay Diagnostic workflows)

TECHNICAL STRENGTHS

- Chemical analysis instruments
- Microbiology tools and testing kits
- Diagnostic outreach kits
- Sample preservation tools
- QA/QC documentation templates
- Pharmaceutical field devices
